

What is the difference between a Free listing and a Super Shop Listing?

Map shops locations

Help customers find you. Automatically locate shop locations by GPS with a logo on the search map to show the user their local store locations.

List view

Make it easy and list your convenient locations by Distance and price including offers and incentive to attract customers

* NEW Unique shop page

Display company information, store coupons and other services and information to attract customers.
*image is not an actual store and for display purposes only

* NEW Unique Coupon page

Describe your offer and communicate details and restrictions. Your promo code will prompt the customer to view coupon code and reset auto reminder

*Also Available on Android phones
